Work Experience

Front-end Web Developer

- Built multiple front-end projects using React.js, including dynamic layouts and authentication systems.
- Developed the front-end for a School Management System for a private client.
- Developed a full-stack bookshop website using the MERN stack, featuring user authentication, product listing, and a shopping cart system.

Live Demo: https://book-shop-frontend-ten.vercel.app/

Key Highlights:

- Authentication systems
- Responsive UI with reusable components
- Dynamic layouts and dashboards
